

Ben Kriebel, PMP

Ben Kriebel has more than 15 years of experience providing business and technology project management as a Director and Senior Consultant advising organizations that include global Fortune 500 Consumer Goods companies, high-growth SMB manufacturers, national retailers, public utilities, a Major 3PL provider, and several federal government agencies and the Department of Defense. Ben has a background in finance, supply chain, and information technology where he has lead global teams through complex business process modernizations and multi-million dollar technology initiatives. Ben's background as a project participant, senior project manager, and now as a consultant advising project managers and executives has given him a unique perspective on the challenges projects present and the impacts felt by all levels of an organization.

After working for Penske Corporation as a Financial and Information Systems Auditor and Senior Project Manager, Ben then worked as a Senior Operations Director for an East Coast Retail Chain and Apparel Distributor overseeing the finance, procurement, and supply chain operations for the organization. Since 2009 Ben has worked as a Senior Consultant and Director for a boutique consulting organization out of Wyomissing, PA. The company's clients include civilian and military agencies, global manufacturers, and large multi-national retail chains. Ben currently serves as a Director where he is responsible for Client Success, Partnership Development and also leads the firm's Cloud Technology Services business unit challenged with growing software sales, technology consulting, and cloud hosting footprint. Ben's responsibilities include emerging technologies, partner development and client relationship management.

Ben graduated with honors with a degree in Finance from Pennsylvania State University. He is a certified Project Management Professional (PMP) by the Project Management Institute (PMI).
